EDGE CO STOOLS

Screw-Type and Pneumatic Stools for Exam Room, Hospitals or Lab.

Value priced adjustable examination stools in screw or pneumatic design provide a choice for almost all requirements. The screw adjustable models are all welded construction and feature legs constructed of chrome plated 1" OD x 14 gauge tubular steel and a solid steel height adjustment screw. Height adjustment range is 19" to 25". The stools have a 13-1/2" seat diameter and feature 4" polyfoam for comfort.

The pneumatic model features a stable 5-leg base design constructed of die cast aluminum. It has a 16" seat diameter, a smooth operating gas cylinder lift mechanism operated by a

convenient semi-ring under the stool. Stool height adjustment is 18" to 25" (nominal).

All stool models are covered in durable, black Naugahyde®. All models feature non-conductive, twin wheel casters for ease of movement.

EDGE CO STEP STOOLS

Sturdy Built Step Stools. 300 lb. Capacity.

The new EDGE CO step stools are ideal for examination rooms, X-ray and any other area where sturdy support is required. The stool legs provide 9" of height and are constructed of 18 gage tubular steel in design, with a long lasting chrome plated finish. The top is all steel with a skid resistant mat. The handrail is made of 7/8" steel tubing with a durable chrome finish and is 34" in height from top of rail to the floor.

SHELF COVER

Shelving shall be made of carbon steel, zinc chromate plated, and finished with a baked-on clear coating to protect against rusting. Best of all, "It's A Snap" to assemble shelving because of its improved posts and shelf supports. The posts are grooved and numbered in one-inch increments, and the one-piece hinged shelf supports instantly align themselves at the desired height and then *snap* into place. Installation is simple and fast; one person can assemble units in minutes with no tools needed.
