

Adjustable bracket supports up to a 48" flat panel!

New video conferencing shelf turns the unit into the ideal conference center!

Screen tilts 30° to provide the optimum viewing angle!

Mobile Plasma/LCD Stand

- Featuring a simple, elegant form, the mobile plasma/LCD stand provides stability and portability for the latest generation in AV equipment.
- Attach up to a 48" flat panel display on the H-style mounting bracket. Compatible with a variety of brands, the bracket is easily adjustable to fit most flat panels on 2 1/2" centers. The bracket also features a mechanism that allows screen tilting up to 30° to provide the optimum viewing angle.
- Constructed from 18-gauge steel for superior durability, the support frame is finished with a brushed metal powder coat that is scratch-resistant and aesthetically pleasing.
- The AV shelf measures 18"W x 14"D to hold a DVD player or other AV equipment. The base shelf measures 2 1/2"H x 30 1/2"W x 29 1/2"D and is designed to protect against tipping. Both shelves are finished with a durable gray high pressure laminate that resists stains and scratching, and are accented with a contrasting black edge band.
- The stand moves easily on 4" urethane swivel casters (two locking).
- Optional video conferencing shelf holds a camcorder or web cam for easy conferencing. The platform measures 6"W x 7"D.

Mobile Plasma/LCD Stand
