

Hide computer equipment
away when not in use!

Office In A Box

- The Office In A Box is a spacious self-contained computer workstation that can be locked away into an attractive and unobtrusive cabinet to save space as well as to provide security and tidiness to any setting.
- Finished in mahogany laminate, the workstation doors feature casters to allow easy and stable motion.
- The retractable keyboard shelf measures a generous 34 1/8"W x 12"D to easily accommodate a keyboard and mouse.
- The top shelf is adjustable to four different positions for superior storage versatility.
- Store heavier computer equipment such as a CPU and printer on the bottom shelf (34 1/8"W x 16 1/4"D), which is also retractable for easy equipment access, making setting up and changing configurations a breeze.
- Both retractable shelves feature black plastic lips that function both as a handle and as an equipment security feature.
- Two storage drawers beneath the keyboard shelf each measure 3"H x 15 1/2"W x 13 1/4"D and keep pens, pencils and important files close at hand.
- Grommets are included for easy and neat cable management.
